1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gray on May 18, 2005.\*\*\*. In claim 1, on line 4 "adapted" has been deleted, and on line 7 "adapted" has been deleted. In claim 23, on line 8 "is adapted to retain" has been changed to "retains--". Also because this application is in condition for allowance except for the presence of claims 16-22 and 31-35 to the nonelected invention on group II made without traverse, claims 16-22 and 31-35 have been canceled. The examiner's amendment was made to delete the functional language of 'adapted' and to positively recite the function of the structure.

2. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claim 1 recites a system for delivering fastener to a workstation. There is a fastener storage device having a storage tube. There is a fastener spacer to orient a fastener in the storage tube. There is an unloading mechanism with an extractor catcher to remove the spacer and the fastener from the storage tube in a single operation. Claim 23 recites an unloading apparatus for a fastener delivery system having an extractor tube using a vacuum source to simultaneously remove a fastener and a fastener spacer from a storage device. The extractor tube has an extractor catcher to retain the fastener while simultaneously

allowing the spacer to be transported to a spacer storage receptacle. The claimed invention is not taught by the cited prior art nor any combination of the cited prior art..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Aurtoi et al is cited showing in figure 1 a distribution system for fasteners 1.
